REPLACE HARD RUBBER

MONEY WITH PORCELAIN

MEISSEN, Saxony, May 23.—A series of porcelain money for Guatemala has been designed at the former royal porcelain works here. If accepted, this currency will replace the hard rubber coins now in circulation in the Central American Republic, where paper money cannot be used because of the climatic conditions.

Although the German government has not yet decided to use porcelain currency, the Meissen porcelain plant in perfecting its process of manufacture in the expectation that this form of money will soon be adopted for national circulation.

SUMMERLIN TAKES

NOTE TO OREGON

FROM STATE DEPT.

Statement of American Policy

Toward Mexico Contained in

Message—Officials Silent.

George T. Summerlin, counselor of the American embassy at Mexico, left last night for Mexico City, the State Department announced today.

Summerlin, it was learned, carried with him a communication for President Obregon, which outlines the tentative policy of the Harding Administration toward Mexico.

State Department officials refused today to state that a formal communication had been addressed to Obregon, but it was learned that Summerlin carries a statement of policy, which while incomplete and not final will give the Mexican president a fair outline of the attitude of the present administration.

While officials of the State Department refused to make any formal statement of what action may be taken by Summerlin, it is understood any conversations he may have with President Obregon will be informal.

VIOLENCE MEETS

POPE'S PLEA FOR

PEACE IN IRELAND

Crown Forces Suffer Deaths

and Injuries—Torch Applied

to English Towns.

LONDON, May 23.—Despite the appeal of Pope Benedict XV that Irish violence cease, many casualties were reported today in a fresh outbreak of disorders in Ireland over the weekend.

Half a dozen members of the crown forces were killed and several were wounded.

Four members of the staff of the Cork Examiner were mobbed while on their way home this morning. Two sustained injuries which may prove fatal.

Sinn Fein violence again spread to England and numerous cases of incendiarism were reported from the Tyne river district.

Thirty fires broke out near Newcastle-on-Tyne, which is in the heart of the Northumberlandshire coal fields where the miners are on strike. Fires did nearly \$250,000 damage in the districts of Stockton and Middlesboro in the Tyne river section.

Part of the valley was flooded by the cutting of the water main. Three arrests were made.

YOUTH SHOOTS TWO MEN

HE FINDS WITH MOTHER

WEBSTER, Mass., May 23.—George Was, nineteen years old, became so enraged when he entered his home here and found two men with his mother that he shot them both, according to the story the police said he had told them. He was arrested on a charge of attempted murder.

According to the alleged confession, one of the two men, August Latour and Joseph Valentine, was in a room with Mrs. Was when the youth came home. The other man, he said, was in the kitchen. Was drew a 22-caliber automatic pistol from his pocket and fired three shots, two of which struck Latour in the breast, the other penetrating Valentine's abdomen. Valentine's condition was said to be serious. Was' father committed suicide about two months ago.

ROBIN AND BLACKBIRD

KEEP HOUSE TOGETHER

NOANK, Conn., May 22.—Captain J. C. Sistrar, fair and square sailorman, and E. M. Ashby, good citizen and true, have been shocked at the alliance which has been formed between a rather rakish looking blackbird and a robin, which have evidently formed a partnership and have started housekeeping together.

The pair was at first noticed carrying sticks, dry grass, etc., to a corner of the eaves trough in a house near the freight yard. Some fussy observer did not like this evidence of bird miscegenation—or whatever it might be called—and routed the saucy pair from this perch. Now, however, they have taken possession of the decayed spot in an apple tree where the limb had been sawed off, the blackbird making the place larger with his long, sharp bill.

The pair are never seen with others of their species, and it is evident that they have been ostracized by both robins and
